

Past Life Analysis

Past Life Consultation is appropriate for those people who are facing intense issues in their lives and are searching for reasons and answers for their pain and suffering. This reading helps in pinpointing the reason of their problem and the probable path they can take to overcome the issue and move forward. Many past life techniques will be taken and I also will take into account planets, houses, signs and nakshatras into consideration even in the divisional charts to understand the issue properly and provide appropriate solutions with remedies, as required.
